RECORD # 10006  
LANGLADE COUNTY SURVEYORS OFFICE  
DATE FILED: 12/28/93 D.T.

- Note "A" Approximate location of the original plat lines shown by broken lines, based on dimensions shown on the original Isle of Pines Plat.
- Note "B" This property iron was in place at the time of the survey. Upon a subsequent site visit the iron had been removed by "unknown parties" according to the owner and neighbors. Written notice has been given to the Langlade County Zoning Administrator and the Elcho Town Chairman. See Wis. Stats. 236.32(2).
- Note "C" Based upon the original Isle of Pines Plat dimensions this reflects the approximate platted road location. It appears that in this area (Lots 13-7) the town road has been constructed considerably to far to the west, and that all of the lots involved have occupied to the existing town road. See Wis. Stats. 80.32(2)&(3).
